

Epilepsy and **RELATIONSHIPS**

EPILEPSY CAN AFFECT RELATIONSHIPS

1

All involved in the relationship must understand what epilepsy is all about.

3

Find ways to overcome concerns that may occur in relationships.

5

Speak to your doctor when problems with impotence occur.

2

Certain types of epilepsy are known to have a genetic basis.

4

People with epilepsy successfully care for and bring up their children.

6

Most people with epilepsy can and do enjoy the pleasure of having a relationship.
